Finance & insurance expertise across the modernization lifecycle

FINANCE & INSURANCE - FROM STRATEGY THROUGH DELIVERY

Solution architecture and modernization

Architects design modern enterprise solutions using Microsoft Power Platform, SharePoint, and integration-driven architectures. Experience includes legacy modernization, cross-system integrations, and enterprise content-driven solutions.

Full stack and mobile development

Developers deliver end-to-end solutions using .NET, .NET Core, Java, JavaScript/TypeScript, React, Android/iOS, and Azure -including mobile applications, customer portals, and high-traffic e-commerce systems.

Microsoft 365 / SharePoint / document management

Consultants provide intranet modernization, workflow automation, DMS upgrades, migrations, and long-term application support across manufacturing, telecom, retail, and insurance environments.

FINANCE & INSURANCE Domain expertise

Finance and insurance domain expertise supports requirements, process mapping, compliance, governance, and user adoption for secure digital transformation.

Where CanCham members can create value with CGI

FIVE CROSS-INDUSTRY PRIORITIES

- 01 AI and automation** Move from isolated pilots to governed, measurable business outcomes.
- 02 Modern applications** Modernize legacy platforms and improve customer and employee journeys.
- 03 Data and integration** Connect systems, automate information flows and improve decisions.
- 04 Cyber and resilience** Strengthen security, compliance and operational continuity.
- 05 Managed services** Improve service quality while creating capacity for continuous innovation.

Suggested first step: identify one priority, one measurable outcome and one accountable owner.
