

Company M&A provides services in the following areas:

Property maintenance

(including outdoor & indoor works) – especially electrical and water supply, ventilation, and heating systems;

Painting, finishing & small construction works;

Territory maintenance

(including overgrown areas, concrete, and brick surfaces).

Custom carpentry & woodworking

(for example, kids' playground renovation, making details from plywood, wood, and OSB); building terraces, etc.;

Experience in adapting and customizing shipping containers,

including metal cutting, welding, drilling, painting, etc.

Our well-known clients include:

Jaunā Teika (or New Teika project)

– one of the largest and, as it seems, the most densely developed newly built quarters in Riga. We work in apartment buildings;

SIA Toode

– one of the oldest and largest manufacturers of metal roofing and related accessories in our country.
